

Sierra Valley, Cal  
June 29<sup>th</sup> 75.

Dr Asa Gray,

Mr Lemmon is off  
in northern Plumas county,  
botanizing & when he left, he  
desired me to reply to such  
letters of his as needed prompt  
attention - &c

Can you send him  
a gram of that drying paper  
such as you sent last fall?  
I ordered it in S. F. but it is  
not to be found in the city &  
if you will forward it immediately,  
it will probably arrive before he  
moves off on an other expedition

You remember his presses use  
of such size that Harper weekly  
answer for folios & the dryer  
should be the same size di-  
mension.

I am Lemmon's friend:

for whom you honored so highly  
with the *Corydalis* found in Bee's  
Meadows. for which I am  
inexpressibly grateful to both  
you & him -

It is really necessary that Lemmon  
should have the papers. He  
lost a part of what he had in  
the spring - through no care-  
lessness of his however.

Very respectfully, you

E. L. Case
